

ASME CUMMINS STUDENT SECTION

Estd: September 2015

ASME Student's Section of Cummins College is established in September 2015. This is the first student section of its kind established in Savitribai Phule Pune University. ASME is unique and one of the broadest knowledge sharing platform in Mechanical Engineering discipline.

ASME provides many services to students of Mechanical and non-Mechanical Engineering. They include helping beginning students to understand the opportunities and responsibilities that they have and developing their interest in engineering through field trips and guest speakers.

ASME also provides its members with opportunities for student employment and for scholarships. Finally, the student section aids its graduating members to find jobs through resume books and career fairs.

Every year, 100+ new students' registered for ASME memberships.

For AY: 2018-19, total 150+ students registered for ASME memberships, out of those 75 students have renewed their memberships. The membership is free for First Year students.

ASME Cummins Student Section is not just a line on your resume, but it's your career connection !!!
