## **MED2201 Project Stage II**

### **Teaching Scheme**

Practical: 28 Hrs/week

### **Examination Scheme**

In Sem: 200 Marks

Oral: 150 Marks

Credits: 14

### **Course Objectives:**

1. To learn modern engineering tools and techniques during the execution of the project and develop an ability for self-learning and lifelong learning.
2. To develop sustainable and environment-friendly solutions.
3. To inculcate a sense of academic integrity and ethics.
4. To present their solutions in the form of reports, and presentations in front of a diverse group of people

### **Course Outcome:**

After learning the course the students should be able to –

1. Learn modern engineering tools and techniques during the execution of the project and develop an ability for self-learning and life-long learning.
2. Develop sustainable and environment-friendly solutions.
3. Inculcate a sense of academic integrity and ethics.
4. Present their solutions in the form of reports, and presentations in front of a diverse group of people.

### **Content:**

In Project Work Stage – II, the student shall complete the remaining part of the project which will consist of the fabrication of the set-up required for the project, work station, conducting experiments and taking results, analysis & validation of results and conclusions.

The student shall prepare the duly certified final project work report in standard format for satisfactory completion by the concerned guide and Head of the Department.
